

GSA-250-350-25

Pant Multinorm Offshore, Orange.

Protection level : CE Category III

Description:

Flame-retardant work pant made from durable inherent FR fabric approved for welding applications. Designed with a raised back for extra support and coverage, preventing exposure when bending.

Features two back pockets, front pockets, a ruler pocket, and a cargo pocket for practical storage. Reflective bands on the legs ensure visibility, while adjustable leg width and reinforced seams provide a secure, flexible fit.

Usage:

Ideal for offshore and industrial work, maintenance, utilities, and engineering services requiring mobility, comfort, and visibility according to North Sea standards.

Fabric:

350 GSM, 98% Cotton, 2% Antistatic
