

SIR FUTURE POWERED BY RESPONDER®

MAIA low shoe

MB3012Z9

UPPER

Made of polyester knit, it promotes air circulation, ensuring breathability and coolness inside the footwear. The protective BUMPER in the toe area ensures extra durability for the upper, protecting it from scratches and abrasions.

CLOSING

Faster, a micrometric lacing system with a metal cable that allows you to adjust lace tension evenly, ensuring a comfortable and customized fit, even when wearing gloves.

LINING

3D-TEX polyester with honeycomb weave for high breathability. Ergonomic TPU heel support.

TOECAP

Aluminum, lightweight and resistant, offers high protection against impacts and compressions.

PUNCTURE-PROOF

PS type composite, non-magnetic, antistatic, and thermal insulating. It offers maximum performance in terms of puncture resistance, full sole protection, and maximum flexibility.

FOOTBED

E-TPU Responder®, a special compound that binds together thousands of E-TPU particles. The patented Responder® technology absorbs shocks and reduces muscle fatigue. Antistatic, with an ergonomic profile, it features holes along its entire surface. These technical characteristics allow the foot to remain cool and dry, ensuring breathability.

SOLE

E-TPU Responder®/Rubber. Midsole made of E-TPU Responder®, a high-performance compound that uses the patented Responder® technology. Thousands of E-TPU (closed-cell expanded polyurethane) particles, endowed with exceptional elasticity and resilience, are bound together by a stable, high-strength compound. This combination creates exceptional reactive cushioning, lightness, and flexibility across the entire foot surface, ensuring excellent performance

even after prolonged and intense use. The rubber outsole, thanks to its deep longitudinal grooves, ensures superior grip on any type of surface. The water-shedding lugs and deep longitudinal grooves guarantee additional stability, protection, and liquid drainage.

FEATURES

ESD Designed to ensure exceptional performance in a wide range of working situations and environments, SIR FUTURE Powered by Responder® Technology stands out for its technological innovation and design, representing the optimal choice for prolonged use and for performing repetitive tasks in an upright position. Suitable for: light industry, logistics and goods handling, service sector.
